

Get a head start on college applications and essays!

During the 10-hour (4 days, 2.5 hours per day) APPLY NOW! Boot Camp, each student will be guided through:

- The Common Application® and ApplyTexas® application
- Two edited college essays to be used or adapted for college admissions
- An edited personal resume and activity list to be used with college applications

Boot camps are fast-paced group events for 12th graders. Because essays will have to be written and edited by each student in a short period of time, we recommend this event for students who already possess good writing skills and who can produce a draft within time constraints. Additional editing may be required to adapt essays for specific schools after the conclusion of the seminar.

PLEASE NOTE: Your non-refundable payment is required to reserve your spot. A laptop computer (with charger) and flash drive are required for participation.

IN-PERSON SESSIONS: The health and safety of our students and staff is our top priority. Sessions are limited to 15 students, and we will hold in-person meetings in our largest rooms for maximum spacing between students. We ask that students wear masks, follow handwashing guidelines, and refrain from attending if they aren't feeling well.

ONLINE SESSIONS: This session will be hosted in a secure Zoom meeting room. Students will have individual conferences to discuss their work using virtual breakout rooms.

LAST SESSION OF 2020

SESSION 9: COPPELL or ONLINE

Sundays, 4:30 - 7:00 pm

October 4

October 11

October 18

October 25

Interested in attending one of our ApplyNOW! Boot Camps, but don't see a session that fits your schedule?

Call us and let us know! We're currently evaluating our next round of boot camps. We'll be happy to add your name to our wait list and notify you as soon as the next schedule is available.
