GETTING STARTED WITH COLLEGE COUNSELING SERVICES

HERE'S WHAT YOU CAN EXPECT

STEP 1

REACH OUT

Contact the College Counseling team at cc@kdcollegeprep.com or 972-906-8825. We'll schedule a convenient time to meet with you and your student.

STEP 2

LET US LEARN MORE

During the meeting, a Counseling Coordinator will ask about your student's goals, background, and preferences. For this reason, we recommend that the student participate in this meeting. This information helps our team determine if your student is a candidate for our services and which, if any, of our programs will meet your family's needs.

The Counseling Coordinator can also describe our philosophy, explain available options, and answer questions about our services.

STEP 3

MEET YOUR COUNSELOR (PINNACLE PROGRAM)

Families that are interested in the Pinnacle Program will meet with a counselor, who can explain his or her background and approach. The counselor will also ask questions to understand your family's expectations and needs. The nature of the college admissions process requires that the student and counselor are a good match, and both parties can assess this during the meeting.

STEP 4

GET STARTED

A Counseling Coordinator will help you register and complete payment for your selected program. Pinnacle Program students will also schedule an onboarding meeting with a Coordinator to learn about our admissions management platform and set up their profiles.
